# Scripps Ranch High School
# Beach Volleyball Courts Enhancement Project

*Community Recreation Improvement Initiative*

| Project Site | Proposal Date | Fundraising Goal |
|---|---|---|
| 10410 Falcon Way San Diego, CA 92131 | Sept 16, 2026 | $50,000 |

*Current Scripps Ranch Volleyball Courts (Located on the west side of the school).*

*Concept rendering showing the intended finished look of the enhanced volleyball court area.*

## Project Overview

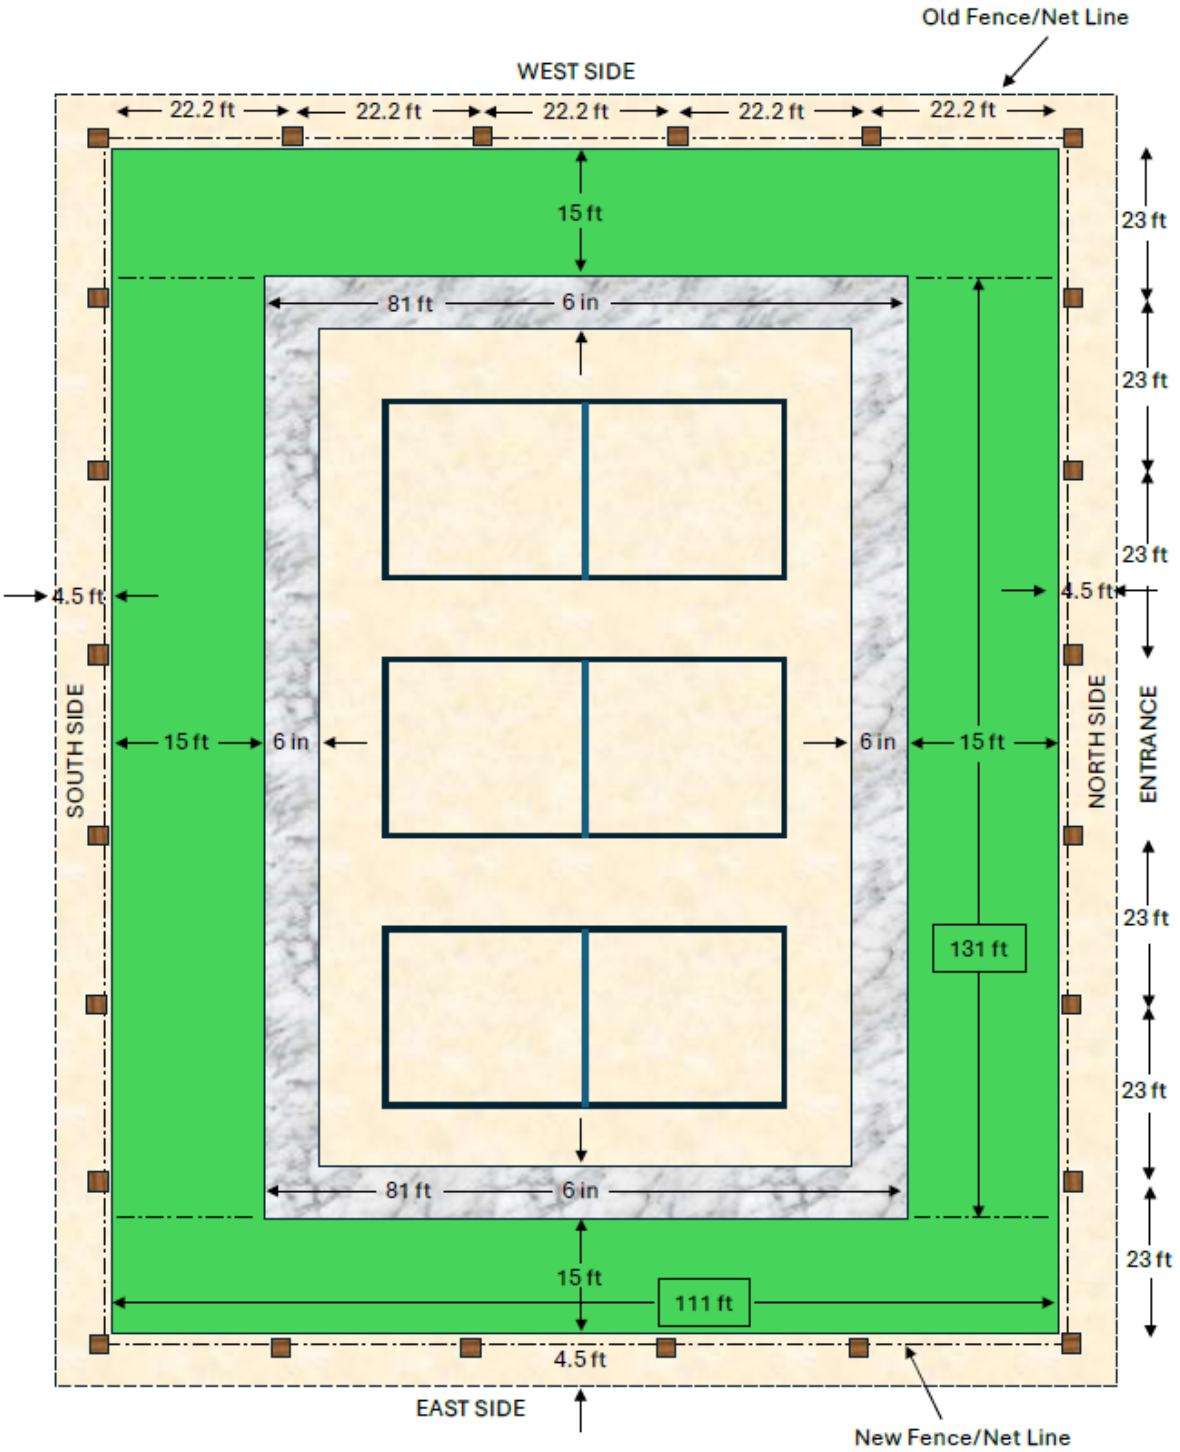

The existing beach volleyball courts provide an important recreational space for students and the community. This enhancement project improves the surrounding area with new concrete borders, synthetic turf viewing areas, grading, fencing, barrier netting, and supporting materials so the courts are cleaner, safer, and more spectator friendly.

- Supports school athletics, physical education, and student wellness
- Improves viewing space and circulation around the courts for spectators, players, and event staff
- Enhance safety by clearly defining play and viewing areas and reducing trip hazards
- Reduces maintenance needs and improves drainage, keeping the courts usable more often
- Creates a more attractive, professional-looking facility that can support hosted games and tournaments
- Encourages greater community engagement and use of the campus recreation facilities

## Site Layout & Improvement Plan

The project plan adds:

- Drainage
- a **6-inch "Stem Wall"** around the sand courts,
- a **15-foot artificial turf viewing area** on four sides for spectators, and
- a **4x4 post – 10 feet high** volleyball barrier netting.

*Project diagram showing turf, concrete, and fence alignment dimensions.*

## Proposal Scope

| Category | Scope |
|---|---|
| **1. Demo** | Remove turf, redwood edging, blue protect and haul away debris. |
| **2. Grade** | Site grading (for drainage) and preparation around the court. |
| **3. Concrete "Stem Wall" border with padding** | 6 inches wide, 12 in deep reinforced concrete border. Help maintain sand inside the courts. |
| **4. Synthetic Turf Sides Viewing Area** | Synthetic turf viewing area, class 2 base, compaction, and turf, 15 ft wide around the concrete border. |
| **5. Fencing (4x4 pretreated post)** | 4x4 pretreated post around perimeter . |
| **6. Volleyball barrier netting** | Is a protective enclosure system installed around the courts to contain balls |

| | |
|---|---|
| **Fundraising Goal** | **$50,000** |

## How Sponsorship Can Help

Community sponsorship can help fund all or part of the project. Support may be directed toward the overall build or toward major components such as the turf viewing area, concrete border, fencing, or site preparation. See list of sponsorships on the next page.

**Title Sponsor — $20,000+**

- Recognition as the official Title Sponsors of the enhancement project with on-site signage

**Court Sponsor — $10,000**

- Recognition associated with the court enhancement project.

**Turf / Viewing Area Sponsor — $5,000**

- Key supporter of the turf and spectator viewing areas surrounding the court.

**Community Sponsor — $2,500+**

- Recognition as a community-level supporter of the project with your own banner.

**Volleyball Equipment Sponsor — $1,000+**

- Recognition as a supporter for the volleyball equipment for the project.

**Business Banner Sponsor — $250 to $500**

- Recognition as a community supporter of the project on a community banner.

**Supporter Sponsor — $500+**

**All donations will be made to a 501(c)(3) nonprofit organization (Tax ID: 88-0577611), which will provide funding for this enhancement project.**

**We encourage the following:**

- Company matching fund donations to encourage broader corporations and community donations.

**Future enhancements include the following:**

- **Volleyball court lighting system**
- **Additional sand courts**
- **Possible drought-tolerant landscaping**
